General Physics Corporation Chosen to Provide e-Learning Services to the Bureau of Alcohol, Tobacco, Firearms and Explosives

Elkridge, MD. September 7, 2004. Global performance improvement solutions provider General Physics Corporation (GP), a subsidiary of GP Strategies Corporation (NYSE: GPX), was selected by GoLearn to integrate, launch and host the Bureau of Alcohol, Tobacco, Firearms and Explosives' (ATF) Plateau™ Learning Management System (LMS) and e-learning platform. This will enable ATF to deliver web-based training, provide classroom management capabilities including scheduling and resource tracking, and manage training and human capital performance, via the Internet.

GP, working with Plateau, will produce a design specification document outlining the technical process necessary to map ATF's requirements to the functionality of the LMS. GP will then perform system integration, content integration, web interface design development, and data migration in order to launch the LMS. GP's hosting services include 24x7x365 monitoring of all applications in a secure facility.

About GP

GP is the principal operating subsidiary of GP Strategies Corporation (NYSE: GPX). GP is a global provider of training, e-Learning solutions, management consulting and engineering services, improving the effectiveness of organizations by customizing solutions to meet the specific needs of clients. Clients include Fortune 500 companies, manufacturing, process and energy industries, and other commercial and government customers. Additional information about GP may be found at www.gpworldwide.com.

The forward-looking statements contained herein reflect GP Strategies' management's current views with respect to future events and financial performance. We use words such as "expects", "intends" and "anticipates" to indicate forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements, all of which are difficult to predict and many of which are beyond the control of GP Strategies, including, but not limited to, our inability to generate funds by selling any assets that are included in the proposed spin-off, our holding company structure, failure to continue to attract and retain personnel, loss of business from significant customers, failure to keep pace with technology, changing economic conditions, competition, and those other risks and uncertainties detailed in GP Strategies' periodic reports and registration statements filed with the Securities and Exchange Commission.

If any one or more of these expectations and assumptions proves incorrect, actual results will likely differ materially from those contemplated by the forward-looking statements. Even if all of the foregoing assumptions and expectations prove correct, actual results may still differ materially from those expressed in the forward-looking statements as a result of factors we may

not anticipate or that may be beyond our control. While we cannot assess the future impact that any of these differences could have on our business, financial condition, results of operations and cash flows or the market price of shares of our common stock, the differences could be significant. We do not undertake to update any forward-looking statements made by us.
